Youth On Their Own is in the process of updating our files. Our goal is to have an email address for every friend to YOTO. Please help us to direct more funding to program as we continue to reduce expenses by receiving information like this on-line! The Holidays for YOTO Students...HOLIDAY HOPE 2011!

Holidays should bring happy times with family and friends. Feeling loved and the special magic of the season is not something that most of our YOTO students experience. Homelessness and lack of caring family severely compound the feeling of despair that many of our students feel during the holidays.

Our goal this year is to present every YOTO student with a $10 gift card to Wal-Mart, Target, Fry’s or Safeway. These stores have been selected because they offer numerous locations with accessibility for all students. The gift cards will be enclosed in a holiday card with a hand-written note of encouragement and greetings personalized to the student. The cards will be delivered to each YOTO student before the holidays. PLEASE only $10 gift cards!

The collection deadline is MONDAY, November 21, 2011.

Here's how you can help:

• Donate gift cards for $10 each as indicated above.
• Donate a NEW item of any kind that a teen might enjoy.
• Mail (or drop off) to our office and note these are for the Holiday Hope.
• Volunteer to write holiday cards to students and enclose gift cards.
• Volunteer to deliver holiday cards and cookies to YOTO students at their schools.

**Student Story – Monique**

Monique came from an abusive home environment. As the oldest child of a neglectful mother, Monique was forced to grow up very fast. Her mother basically ignored her children, leaving Monique to not only look after her two younger siblings but also the added responsibility of all the household work.

When Monique was sixteen years old, her stepfather was released from prison and returned immediately to abusing heavy drugs. Within a week of his release, Monique’s stepfather was at home with the kids, high on PCP, and severely beat Monique. The stepfather was again arrested, but immediately bailed out by her mother, who despite seeing her daughter badly beaten took the side of her abusive husband. Monique was removed from the house by child protective services and placed in a group home.

Despite all of the hardships she endured, Monique remained focused and determined to succeed in life. As a member of the National Honor Society since she was a freshman in high school, Monique also excelled as a varsity basketball player. While maintaining her good grades, Monique kept her sights focused on her future. Her high school diploma was the key to a better life.

Monique plans to become a pediatric nurse in order to fulfill her passion of helping young children. She celebrated her high school graduation in 2011 and also earned a 2 year scholarship to Pima Community College. Her success was a result of her hard work, made possible because of the support from donors like you through Youth On Their Own.

Student Story – Armando

When he was just a young boy, Armando’s father died of a drug overdose. To lose a parent in such a tragic way would be difficult to handle at any age, but for a child it is particularly traumatic. Then at the age of 14, Armando lost his mother to an overdose of pills. His mother’s death was particularly hard on him because not only did he lose his only parent, but it also created a rift within the remainder of his family. After his mother’s death, Armando and his younger sister were orphaned.

Armando was very depressed during this time and went to therapy in order to cope with his parents’ deaths. Despite hardships that would crush most adults, Armando was able to persevere. Armando says, “I will mourn my mother’s death forever, but not collapse under the sorrow. I must build on the situation and be the best that I can be at what I do. Living in darkness is not a healthy way to live because it prevents opportunities that could be great. Opportunities are given every day and I have passed too many along”.

With assistance through Youth On Their Own, Armando has become a strong, motivated young man, graduating from high school in 2011 and earning a full two year Pima Community College scholarship. He plans to study airplane mechanics and is excited about his future which is filled with hope. Armando says, “I feel in order to achieve what one desires most, one would need some assistance, and my assistance has been Youth On Their Own. Youth On Their Own has been a tremendous help and I am in their debt for the aid and support I received from the donors to help make this future possible for me.
